Muhammad Amin Nadim

has successfully completed the online, non-credit Specialization

Install and Manage Google Cloud's Apigee API Platform

Apigee's Operations Training is the core training that prepares engineers in the installation and management of Google Cloud's Apigee API Platform in an on premise environment. This certificate indicates the completion of the "Installing and managing Google Cloud's Apigee API Platform" course which is recommended for all Operation engineers working with the Apigee API platform in an on premise instance.

Google Cloud Training

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
